This report may only be distributed in its entirety and in accordance with the terms and conditions of the contract. Test results relate only to the items tested. We have no responsibility for the design, materials, workmanship or performance of the product or items tested. This report does not constitute an approval, certification or endorsement of the product tested.

This report is made on behalf of BRE Testing. By receiving the report and action on it, the client accepts that no individual is personally liable in contract, tort or breach of statutory duty (including negligence). No third party has any right to rely on this report.

1 Introduction

This document is a supplement to report TE 200864 which was issued on 18th October 2000. This supplement serves to make one correction to the report and was requested by Fire Proofing Services Ltd, the sponsors of the test.

2 Details

In the BRE test report, TE 200864, issued on 18th October 2000, there is an incorrect statement made in the description of the access panel, Section 2.3, Page 6.

There was no Lafarge Drywall Sealer applied to the Megadecco plasterboard used in the access panel leaves.
